WORK EXPERIENCE

March 2023 - Present
Atara Studios
Johannesburg

> **UX Designer**
I am involved in the design and development of digital products. I have collaborated with other designers, developers and product managers in reaching our clients' goals. Day-to-day activities include conducting UX research, designing mockups and prototypes, designing UI elements for the company's digital assets using various UI/UX tools and building websites (code & no/low-code).

Oct 2020 - Feb 2023
Atara Studios

> **Web Developer**
I performed as a highly motivated Front-End Developer with a keen eye for design and a focus on crafting user-centric interfaces. Proficient in HTML, CSS (including frameworks like Bootstrap, JQuery and React), and JavaScript.

EDUCATION HISTORY

2023
IBM
Remote

> **Certificate - IBM User Experience Design**

2022
Varsity College
Remote

> **Higher Certificate - Mobile Application & Web Development**

2021
MTN Business App Academy

> **Higher Certificate - Mobile Application Development**

PROFILE

Using the technology infrastructure, I assist organizations in expanding reach, increasing accessibility and maintaining a credible and reliable online presence. I'm a T-shaped UX Designer, and my wing disciplines are web development and digital marketing & analytics. I'm working on a UX case study for a South African luxury leather goods online store.
